

DBT/ NATIONAL INSTITUTE OF IMMUNOLOGY (NII), NEW DELHI

NII celebrates National Science Day

New Delhi, April 02: National Science Day is celebrated on February 28 every year to mark the discovery of 'Raman effect' by Sir C.V. Raman. In 1930, Sir Raman was bestowed the Nobel Prize in Physics. Hence, National Science Day is a great day for Indian science and the scientific community.

National Institute of Immunology celebrated Science Day on 28th February 2020 in the Institute's premises. A public lecture by Prof. Jitendra P. Khurana on "Molecular insight into Plant Vision" was organized to appraise and motivate people about plant science. The public lecture was attended by institute staff and students from neighboring universities and institutes. Besides public lectures, a poster competition was held for Ph.D. students where they showcased their research activities. Total 33 students participated in the poster competition. Three external judges were called to evaluate the posters and seven students received prizes as best poster awards. The Institute keeps organizing this kind of activities for motivating NII and other students.
