

Testing and cases status of COVID-19 in India as on 5 May 2020, 11 am

As India entered the second extension of the lockdown with considerable relaxations in orange and green zone, according to the Indian Council of Medical Research (ICMR), 1,191,946 samples have been tested as on May 5, 11 am. The total number of COVID-19 cases in India has risen 46,476 and 1,571 people have died so far. The Ministry of Health and Family Welfare said that there have been 3,900 COVID-19 cases and 195 deaths in the last 24 hours, the largest spike ever in both.
