IMD issues heavy rainfall alert for Tamil Nadu, Kerala, Puducherry, and Lakshadweep

New Delhi, November 17, 2020 (Vigyan Samachar)

India Meteorological Department (IMD) is issuing an alert for Tamil Nadu, Puducherry, Karaikal and Kerala predicting heavy rainfall during 17 November and 18 November 2020. There is also possibility of heavy rainfall in Lakshadweep today 17th November 2020.

As per IMD, trough in easterlies running from Comorin area to north Coastal Tamil Nadu and another trough running from Maldives area to southeast Arabian sea off Kerala coast in lower levels is creating favorable condition for rainfall accompanied with thunderstorm & lightning over Tamil Nadu, Puducherry & Karaikal and Kerala during 17-18 and Lakshadweep on 17th November, 2020.

Isolated rainfall is likely over Peninsular India and light rain/snow over Western Himalayan region during 21-23 November 2020. However, dry weather very likely to prevail over most parts of northwest India during this period.

As per the National Weather Forecasting Centre, IMD forecast, there is a heavy probability of thunderstorms with lightning in Kerala and Tamil Nadu, Puducherry & Karaikal and Lakshadwepp during the next two days.
