

## IMD weather alert for different parts of the country

New Delhi, November 20, 2020 (Vigyan Samachar)

India Meteorological Department (IMD) is issuing an alert for Andaman and Nicobar Islands predicting heavy rainfall during 21 to 22 November 2020. There is a possibility of heavy rainfall in Tamil Nadu, Puducherry and Karaikal during 23-24 November 2020.

Due to formation of a low pressure over the central parts of the South Arabian Sea with a cyclonic circulation moving towards west-northwestwards and being

concentrated in a depression over the southwest Arabian Sea during the next 36 hours are creating conditions that are favorable for scattered to widespread rainfall accompanied with thunderstorm & lightning over Kerala, Mahe South Tamil Nadu and Lakshadweep on today 20 November 2020.

As per IMD, Northeast monsoon rainfall activity very likely to be subdued over southeast peninsular India including Tamil Nadu during next 2-3 days. However, dry weather very likely over most parts of the northwest India during 25-27 November 2020

As per the National Weather Forecasting Centre, thunderstorm with lightning at isolated places are also very likely in Assam & Meghalaya, Kerala & Mahe and Lakshadweep area during next 2 days.
