Agro-Meteorological Advisory (AAS) Services by Ministry of Earth Sciences

Ministry of Earth Sciences (MoES) provides district level Agro-Meteorological Advisory Services (AAS) in collaboration with the Indian Council of Agricultural Research. The dissemination of [Agromet Advisories](#) to user communities through and Interactive Voice Response (IVR) technology is continued in the country through [Kisan Portal](#) and Public Private Partnership (PPP) catering to the need of approximately million farmers of the country. At present 658 AAS district bulletins are being prepared and issued to cater to the need of the farmers for planning the operation like sowing, irrigation, application of fertilizer, pesticide, harvest, protection of crops from weather disasters.
