Thunderstorm with lightning likely at many parts of the country

Mohammad Faiyaz Anwar

As per the National Weather Forecasting Centre, India Meteorological Department (IMD), Ministry of Earth Sciences forecast, there is heavy probability of thunderstorms with lightning and gusty winds in many parts of the country during the next five days.

The following places are very likely to experience this: *Jammu & Kashmir, Ladakh, Gilgit-Baltistan, Muzaffarabad, Punjab, Odisha, Uttarakhand, Haryana, Himachal Pradesh, Delhi, Punjab Uttar Pradesh, and West Rajasthan.*

A low-pressure area over East-central Bay of Bengal & neighborhood now lies over East-central and adjoining West-central Bay of Bengal and also expected to move west-northwestwards and become well marked during the next 48 hours.

Under the influence of this Low-Pressure Area, fairly widespread rainfall along with isolated heavy falls is expected over Odisha, north Coastal Andhra Pradesh, and Telangana between June 10 and June 12 and over Vidarbha, Chhattisgarh and south Madhya Pradesh between June 11 and June 13.

As per IMD, due to the strengthening of southwesterly flow, conditions are becoming favorable for heavy to very heavy rainfall on the west coast of India during 10-14 June 2020. However, rest of the country is likely to experience heat wave conditions from 10 to 14 June 2020.
