### Testing and cases status of COVID-19 in India as on 28 April 2020

As per Indian Council of Medical Research (ICMR), 770,764 samples have been tested as of 28 April and total number cases of coronavirus in India has risen 31,332, and 1,008 people have died so far, according to Worldometer data. The highest number of cases in India are from Maharashtra (9,318), Gujarat (3,744), Delhi (3,314), Madhya Pradesh (2,368), Rajasthan (2,383), UP (2,043) and Tamil Nadu (2,058).

Reduction in growth rate of COVID-19 was found after the lockdown. The number of cases is doubling every 10 days instead of every 3 days. Initially, of course, a very rapid growth was seen when the number doubled every 3 days.
