Weather Advisory: Severe cold wave & cold day conditions over northern parts of India

The India Meteorological Department, Ministry of Earth Sciences, Government of India announced that given the minimum temperature and its trend, there is a high probability of cold wave conditions in parts of Punjab, Haryana, Chandigarh, and Delhi. Sub-Himalayan West Bengal and Sikkim and separate pockets in Odisha, Jharkhand, Bihar, Himachal Pradesh, Uttar Pradesh, Rajasthan, Madhya Pradesh, and Vidarbha December 31, 2019 morning hours and abate thereafter due to increasing in wind speed in the northern parts of the country. Due to the increase in wind speed at lower levels from 31 December afternoon, its intensity is likely to decrease significantly.
