

### Testing status and new cases of COVID-19 in India as on 27 April 2020

India is in its last week of the 2nd phase of a 19-day nationwide lockdown imposed by the Central Government to reduce the spread of coronavirus in the country. The most important factor in preventing the spread of the virus locally is to empower the citizens with the right information and taking precautions as per the advisories being issued by the Ministry of Health & Family Welfare. As per Indian Council of Medical Research (ICMR), 716,733 samples have been tested as of 27 April and 28,380 individuals have been confirmed positive.
