DBT-NIPGR scientist elected fellow of NASI

New Delhi, Feb 04: Dr. Naveen C. Bisht, Scientist at National Institute of Plant Genome Research, New Delhi (DBT-NIPGR) has been elected as a fellow of the National Academy of Sciences, India (NASI). Dr. Bisht has made significant contributions in the area of plant secondary metabolism and nutritional genomics in Indian oilseed mustard. His laboratory at NIPGR is dedicated towards investigating the molecular-genetics and biochemical regulation of glucosinolates, a specialized class of metabolites that function as defense compounds, signaling cues as well as nutritional factors.
