

DBT- inStem scientist selected for HarGobind Khorana Award

New Delhi, March 09: Dr Bhavana Muralidharan, Scientist E/Assistant Investigator at DBT-Institute for Stem Cell Science & Regenerative Medicine (DBT- inStem), Bengaluru has been selected for the HarGobind Khorana- Innovative Young Biotechnologist Award 2020.

Dr Muralidharan is a group leader in the Brain Development and Disease Mechanisms theme at inStem. The award recognises her efforts to study the pathological molecular mechanisms of chromatin dysregulation leading to defective brain development in patients with intellectual disability.

inStem congratulates
Bhavana Muralidharan
Scientist E/Assistant Investigator
on her selection as a
**Har Gobind Khorana-Innovative
Young Biotechnologist Awardee 2020**
Department of Biotechnology, India
