

DBT-ILS holds curtain raiser for India International Science Festival

New Delhi, Dec 11: DBT-Institute of Life Science (DBT-ILS) located in the research hub of Bhubaneswar (DBT-ILS) held a curtain raiser event for the India International Science Festival (IISF 2020) on the 4-5th December. It was conducted on the virtual platform, which included two days of science festival.

The two days program includes popular lectures from four speakers who spoke of developments in the fields of physics, chemistry, biology and agriculture biotechnology. The registration was free but mandatory for participation.
