

DBT-inStem's campaign to promote #Unite2FightCorona

New Delhi, Dec 01: In the continuing efforts to promote use of hashtag #Unite2FightCorona on social media, DBT-Institute for Stem Cell Science & Regenerative Medicine (DBT-inStem) has been proactively using it on the different in-house contents of the Institute – posters, artwork, photographs and videos, with emphasis on the three basic rules (i.e. #WearAMask, #HandHygiene, and #PhysicalDistancing) to protect from SARS-CoV-2 infection.

Below are some of the links of the social media postings for reference, which have been also shared by Dr. Renu Swarup, Secretary, DBT, and DBT's other autonomous institutions.
