

DBT-InStem team studies link between diabetes and heart issues

New Delhi, Feb 18: A recent publication in *Science Advances* (2021) from Dhandapany Perundurai's lab at DBT-Institute for Stem Cell Science and Regenerative Medicine (DBT-inStem) on a shared genetic link between cardiomyopathy and metabolic syndrome in South Asians was featured in *Deccan Herald* Jan 28, 2021.

An accompanying article on this publication is posted on the inStem website, entitled 'Shared Genetic Link for Heart Muscle Disease and Diabetes Identified among South Asians'
