

DBT-NCCS and CSIR-NCL scientists file for a US patent.

New Delhi, Nov 20: A team of scientists from DBT-National Centre for Cell Science (DBT-NCCS) and CSIR-National Chemical Laboratory have filed for a US patent for a process for the preparation and use of artemisinic acid glycoconjugate compounds.

The team consisted of Dr. Manas Kumar Santra, scientist at NCCS, and Dr. Asish Kumar Bhattacharya and Dr. Tharun Kumar Kotammagari, scientists from CSIR-NCL. The US patent application was filed by CSIR.
