

Workshop on Basic Bio-Methodology of Laboratory Mice And Rats

New Delhi: The second edition of Training Workshop On Basic Bio-Methodology Of Laboratory Mice And Rats will be conducted at the Bangalore Life Science Campus from Feb 11-15, 2020.

The workshop is conducted by the Animal Care and Resource Center (ACRC) under the aegis of the DBT funded National Mouse Research Resource (NaMoR) Programme at Institute for Stem Cell Science and Regenerative Medicine (InStem) and National Centre for Biological Sciences (NCBS).

More than 20 participants from across the country will participate in this skill-development workshop. The campus animal facility staff will provide hands-on training in the area under the supervision of veterinarian Dr. G.H. Mohan.
