

DBT-Institute of Bioresources and Sustainable Development (IBSD)

IBSD distributes hand sanitizer to Manipur Police and Imphal Municipal Workers

Apart from taking up research projects aimed at finding solutions for the COVID 19 infection, researchers at Department of Biotechnology's Institute of Bioresources and Sustainable Development (IBSD) have also prepared and distributed hand sanitizers to the personnel of Manipur Police and workers of the Imphal Municipal Council at Khwairamband Bazar, Imphal, who are at the frontline of the national response to the pandemic. These sanitizers have been made as per WHO recommended guidelines by the IBSD team led by its Director. The institute is also making efforts to source more of the raw materials so that more sanitizers can be prepared, as the supply of this is very acute in the market presently.
