DBT-NCCS scientist pens article on Coronavirus genome sequencing

New Delhi, Sep 14: Dr. Yogesh Shouche of the Department of Biotechnology’s National Centre for Cell Science (DBT-NCCS), Pune has written a popular article on genome sequencing of the SARS-CoV-2 virus, for Marathi newspaper, Maharashtra Times. It was published on 6th September, 2020.

The article served to increase public awareness about the DBT's pan-India 1000 genome sequencing initiative, and acquaint the lay public on the significance of sequencing the viral genome, and the outcomes of the studies on viral genome sequences from Indian patients.
