

DBT-inStem finds an envious place in Nature Index

New Delhi, June 17: The Department of Biotechnology's Institute for Stem Cell Science & Regenerative Medicine (DBT-inStem) has added yet another feather to its hat. It ranks within the top 50 among Indian institutions in the Nature Index 2020 ratings, based on its research publications. In terms of disciplines of science, it has bagged a more coveted position in the field of life science research in India. It has been ranked seventh in the category for the country. As a young institute, it is an exciting development for its faculty, collaborators, students, and staff as it marks a recognition of their creativity and dedication.

The Nature Index is a database compiled by Nature Research of author affiliation information collated from research articles published in an independently selected group of 82 high-quality science journals. The aim is to provide a close to real-time proxy of high-quality research output and collaboration at the institutional, national and regional level.
