

RCB signed the MoA with Cosmic Cordycep Farms, Faridabad to identify the scope of services for the Antiviral activity testing against SARS-CoV-2

To meet the growing need for the *in vitro* antiviral assays for the new drug candidate/test substance (TS), DBT's Regional Centre for Biotechnology (DBT-RCB), Faridabad is providing antiviral activity testing against SARS CoV-2 in the cell culture model at a non-cytotoxic concentration of the TS, while Cosmic Cordycep Farms, Faridabad shall be reimbursing the cost of services.
