

DBT-ILS Webinar on Entrepreneurship in Biotechnology.

New Delhi, Oct 16: DBT-Institute of Life Sciences (DBT-ILS), Bhubaneswar has established a Biotechnology Incubation Centre at its Campus in Bhubaneswar with an objective to strengthen the facilities for start-ups for incubation and development of innovative, affordable and commercially viable bio-processes, products and services of high quality which will enable setting up of biotech clusters by bio-entrepreneurs.

DBT-ILS Bioincubator webinar series on entrepreneurship is an initiative taken by the Bioincubator to build awareness around the broad array of opportunities in biotechnology available to start-ups, researchers and academicians. The webinar was held on 9th October, 2020 from 4.00 PM to 5.30 PM. It was a one and half hour program curated for the target audience comprising professors, scientists, researchers, and start-up entrepreneurs. This webinar will be helpful for everyone who is looking to grow as entrepreneurs. The registration was free but mandatory for participation.
