

DBT-IBSD initiative on Personnel Protective Equipment

Department of Biotechnology's Institute of Bioresources and Sustainable Development (IBSD) at Imphal, Manipur is in the process of driving large scale production of locally made hand sanitizers, masks and other personal protection equipment (PPE) kits.

It is promoting start-ups and encouraging rural entrepreneurship in Manipur and Meghalaya to strengthen the local supply chain, which will be more resilient to outbreaks and lockdowns and help protect the people from community transmission of this highly contagious Covid-19 infection.
